13.00 Lunch

14.30 Future activities (next year MCM meeting, training school, workshops, stsm, publication)

15.30 Open discussion

16.30 Closing of the meeting

Notes about participation and reimbursement eligibility

Please note that invitations to the IC1203 COST ENERGIC MCM-2 meeting which will take place in Vienna 16-17 January 2014 will be sent out to the MC and MC substitute members and to WGs members and STMS beneficiaries.

According to COST rules among the eligible participants, a certain number of WG members will be selected by the Chair of the Action on behalf of the Management Committee (MC) as entitled to reimbursement. The criteria of the selection will be as follows:

Priority for invitations will be given to WG members who are prepared to briefly present (10 minutes) recent research results relevant to the action. These might be based on ongoing work, or work recently published at a conference or a workshop - the aim is to inform other action members about relevant research going on within the action. Please send a title and an extended abstract of up to 2 pages of your contribution before the meeting (no later than 7th January) to the Action Chair, the local organizer (crisrina.capineri@unisi.it, huanghaosheng@gmail.com) and the relevant working group chairs (WG1: Henrik Harder and Kristian Reinau ; WG2: Vyrion Antoniou; WG3: Ross Purves)

For STSM beneficiaries a 20 min presentation of the results of the STSM is requested. The title must be sent before the meeting (no later than 7th January) to the Action Chair, the local organizer (crisrina.capineri@unisi.it, huanghaosheng@gmail.com) and the relevant working group chairs.

Other selection criteria will consider:

Country coverage (at least participation of one member of the MC per country would be appreciated).

ECR and Gender balance
