

Programme for WG 3 Meeting in Paris on Sep 7 2016

Location: Room A770, Building A, IGN

09:30 - 10:00 Welcome and introduction

10:00 - 12:30 Session 1 - WG3 contributions to COST ENERGIC

- Check for relevant material in Handbook and other sources
- Ensure relevant material is available in repository
- Create a call for missing contributions and instructions how to make them available
- Develop a script, helpful information, and example for WG3 videos
- Plan final meeting in London

12:30 - 14:00 Lunch

14:00 - 16:00 Session 2 - WG3 Current and future research activities

- Karoly Farkas & Imre Lendak: *How many drivers does it take to spot an OpenSpot?*
- Seán Lynch: *Evaluating the impact of a Medically Supervised Injection Center in Dublin City Center*
- Cristina Capineri: *Big data, big topics and stereotyped narratives. The example of "landscape"*
- Ruket Cakici : *Extracting Location Information from Crowd-sourced Social Network Data and Detecting*
- Frank Ostermann: *Geospatial semantics of geo-tagged photos for improving the intelligence of smart cities*

16:00 - 17:00 Session 3 - Strategies for WG3 collaboration beyond ENERGIC

- Identify possible collaborations
- Set up working groups
